

JÄRVEN CPR BOARD

Järven CPR board, rev. 19.10.00

SAFETY • STRENGTH • HYGIENE

Järven's sturdy and hygienic CPR-board is manufactured in hard plastic and has been developed in close cooperation with experienced CPR-personnel. The grip friendly handles and the soft bevelled edges give you an effective and easy to handle CPR-board when needed.

Järven CPR-board is easy to clean and disinfect, reducing the risk for infections. For normal cleaning, it is recommended to clean with soap solution and water. When disinfecting you can use an alcohol based cleaning agent with surfactant.

Consult the instruction manual before using this product.
