

MAGMA PLUS

Hygiene mattress for environments with high flame retardancy requirement.

Especially suitable for criminal detention facilities, psychiatric clinics and rehabilitation treatment centres. Meets one of the world's toughest fire requirements for mattresses.

- HYGIENE BARRIER.** The welded cover is fully waterproof to prevent urine, blood or other liquids from penetrating to the mattress core. A seamless cover also prevents bed bugs and lice from entering the foam core.
- EASY TO CLEAN.** The mattress can be cleaned with soap-based cleaning agents. Disinfection is carried out using alcohol-based cleaning agents with surfactants. Always dry with a cloth.
- A SAFE MATTRESS.** The seamless cover also makes it more difficult for those who want to hide things to cause harm, and without seams, suicide attempts are made more difficult.

CMHR foam, which meets the fire safety standard SS 8760010:2016, test method NT-Fire 055.
